This is just a note to express my personal appreciation for your help in making the student radio station a success in its first year of operation.

The executive committee worked very hard to get WWEC on the air, but once there, it was your responsibility to make the thing really tick. You did that and you did it well.

Also, thanks for the framed picture. It will soon be hung in the publications office. I can't say that I really deserved it, but I gladly accept it.

Good luck in your finals. Have an interesting summer. If you get a chance, stop in over the summer. If not, we'll see you in September.
